## EDUCATION

### Bhagwan Parshuram Institute of Technology

Bachelor of Arts in Information Technology

Delhi

Aug. 2023 – May 2027

### Army Public School Janlgot

Non-medical , Class XII , 86.6

Jammu, Kathua

Aug. 2022 – May 2023

### Army Public School Janlgot

Non-medical , Class X , 93.3

Jammu, Kathua

Aug. 2020 – May 2021

## EXPERIENCE

### Full Stack Web Developer Intern

August 2024 – September 2024

*Skill Eclipse*

*Remote Internship*

- Developed a full-stack (MERN stack) e-commerce online application for customers using React, Mongo, Express, and Node. It includes features like product filtering based on user requirements, as well as sign-up and log-in/out capabilities with user data saved in a database.
- Created a full-stack blog web application with Vite, React, MERN stack, and Firebase that allows users to upload images and write blogs, which can then be viewed and commented on by others.

### Web Developer Intern

June 2024 – July 2024

*Cantilever*

*Remote Internship*

- Created a full-stack news web application with News-API, React-js, Mongo-db, Express, Bootstrap, Node-js, JSX, and the MERN stack so that users could access the most recent and personalized news. It also included categorized filtering options for users, as well as sign-up and log-in/out features where data is saved in a database.
- Developed a full-stack E-Commerce Web application using React-js, Mongo-db, Express, Bootstrap, Node-js, JSX , MERN stack for consumers where users can log in and register if new users and check out prices of different products and sort products according to their needs..

## PROJECTS

### Gemini AI-Clone | React, Node, Express, MongoDB, Bootstrap, Gemini Api

September 2024 – October 2024

- Developed a full-stack AI web application using MERN stack, A complete AI clone with features like chatbots, text generation, paragraph generation, and JavaScript converters using the Gemini API
- Served with log-in log-out and new user registration functionalities using MongoDB database and node and express as backend handlers
- User's can log-in and their details get stored into the mongoDB database with an encrypted password for security

### E-Commerce Website | React, Node, Express, MongoDB, Bootstrap, FakeStore API

June 2024 – July 2024

- Developed a full-stack E-commerce website application for consumers to check prices and details of products.
- Included with filtering, log-in, log-out and and new user registration like options.
- User's can log-in and their details get stored into the mongoDB database with an encrypted password for security.

### News-Daily ( News-app ) | React, Node, Express, MongoDB, Bootstrap, News API

June 2024 – July 2024

- Developed a full-stack ( MERN stack ) website which shows daily and updated news by fetching data from latest news-api.
- Included with filtering, log-in, log-out and and new user registration like options where users can find and filter their interest related news and save their data
- User's can log-in and their details get stored into the mongoDB database with an encrypted password for security reasons.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, Java, JSX, C/C++, SQL

**Frameworks:** React, Node.js, Bootstrap, Express.js, Material-UI

**Developer Tools:** Git, VS Code, Github , Deployment, IntelliJ

**Libraries:** React.js, Node.js, MongoDB, MERN stack

**Skills:** MongoDB, React-js, Express-js, Node-js, Bootstrap, JSX, Mongoose, Github, JAVA, C++, JavaScript, Html, CSS, Full-Stack-Web-Development
